

CDR's Kink Interest & Willingness Inventory

Purpose: This inventory is designed to help facilitate communication between you and your partner about your kink and sexual interests, desires and curiosities as well as to gauge your willingness to try things outside your own interests if it means pleasing your partner.

Directions:

1. Decide if you wish to fill this out as someone taking on the role of a **dominant/top**, **submissive/bottom** or (if the role you like to take varies) as a **switch**.
2. Fill out your copy of this inventory privately. Try not to rush.
3. Set a time to sit down with your partner to exchange inventories, read them and discuss. *This should be outside the bedroom, like over coffee, where there is no pressure to immediately try any of the activities.*

Rate your interest or willingness on a scale of 0 to 3, as a hard limit or unknown:

- 0 = I have no interest, but it's not a hard limit
- 1 = I have very little interest or willingness
- 2 = I have some interest or willingness
- 3 = I am very interested or willing
- X = This is a hard limit. I am not willing to do this under any circumstances.
- ? = I don't know what this is.

Definitions:

"Interested In" is about your desires. It means that you would like, or think you would like, to experience this activity.

"Willing To" is about experimenting with or pleasing your partner. It indicates your level of willingness to try something for your partner, regardless of your own level of interest in an activity.
